

organic postnatal bath oil

Discover why this rich and luxurious organic bath oil is a must for new mothers

Your time after giving birth is precious. Caring for a new baby is demanding work as well as a great pleasure. It's essential for you to also have a little time each day to take care of yourself. The easiest way to do this is to make your bath a special treat.

Luxuriating in a tub of warm water is a wonderful way to restore your energy, soothe away tensions and give yourself a break. New mothers don't often have the time or opportunity for a full body massage. But you can bath whenever the possibility presents itself.

The addition of **Organic Postnatal Bath Oil** to the water will have the following benefits:

- The essential oils will be absorbed through your skin and will also be inhaled. They have been chosen specifically to help to soothe and relax you, relieve tension and depression and stimulate energy flow so that your bath becomes a therapeutic experience.
- This is the quickest and most effective way to make sure you are nourishing your skin. You'll notice how the rich oils totally cover your skin leaving it feeling smooth, soft and moisturised.

8 pure and natural organic essential and base oils have been combined to make Active Birth Organic Postnatal Bath Oil ideal for new mothers.

Sweet Almond (*Prunus dulcis*) and **Apricot Kernel** (*Prunus armeniaca*) help hold moisture in the skin for hours and leave your skin feeling soft and non-greasy

Sunflower Seed (*Helianthus annuus*) contains a high concentration of Vitamin E which is a major anti-oxidant that aids in bringing nourishment to skin cells.

Rose Hip (*Rosa canina*) is a natural moisturiser rich in Vitamin C that hydrates your skin, and firms and tones skin tissues. It contains natural trans-retinoic acid for the treatment and prevention of stretch marks.

Wheat Germ (*Triticum sativum*) is ultra nourishing and a rich source of vitamins E, A, and D, and natural lecithins. It is reputed to have anti-aging properties, primarily due to the antioxidant effects of the vitamins, which reduce the activity of free radicals.

Lavender (*Lavandula angustifolium*) has potent anti-bacterial, stimulating, antispasmodic, and decongesting properties.

Bergamot (*Citrus bergamia*) uplifts your spirit and emotions with its delicious fresh and invigorating citrus fragrance. It has antiseptic, antibacterial and toning properties.

Mandarin (*Citrus reticulata*) is uplifting and relaxing. It nourishes the skin to help prevent stretch-marks and reduce fluid retention.

Here's what new mothers have to say about
Active Birth Organic Postnatal Bath Oil:

'I'm down to the last drop, please send me two more bottles. I've used nothing else. My skin is beautifully soft and supple. I wouldn't dream of using anything else.'

'I can't have a bath without it. It smells fantastic and leaves my skin feeling wonderfully smooth and soft.'

'Thanks for introducing me to your bath oil. It's made such a difference to my bathing experience. I feel so relaxed afterwards.'
